

Project Title (not your own): Art For All Karl Böcker Heuristic Evaluation

Heuristic Broken	Description	Severity
consistency Y	Screen 1.7, when using QR code there will only be 1 result, hence <del>that</del> screen 1.7 is redundant.	1
4 consistency	Screen 2.4-2.5 Purple menu shifts from vertical to horizontal orientation. Maybe just a stylistic choice	2
3 user control	Screen 2.5 → Not clear how to return to screen 2.4. Have to <del>re-click</del> reclick 'Learn More'?	1
4 consistency	Screen 2.12 Comments are chronologically ordered, convention may be to have some voting system?, unreadable if posts are frequent.	2
4/1 consistency / system status	Screen 3.7, Return to search on the bar on the bottom may be confusing	2
4 consistency	Screen 2.3, App relies almost solely on 'tabs' yet this screen is a list	1
8 Minimalism	Do you need 'Art For All' on all pages? Maybe just color scheme can provide branding?	1
